Patents Showing: View as: Patents **1 - 10** on **release child lock and decrement count**. (0.04 seconds)[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)[Distributed resource management](#)system using hashing operation to direct ...

US Pat. 5301337 - Filed Apr 8, 1990 - Bolt Beranek and Newman Inc.

Lock the hash node for the resource, in case we want to free it. ... If the **child count** goes to zero and there are no *//* open locks, the parent resource

...

[\[APPLICATION\] System and method for database lock with reference counting](#)

US Pat. 10828517 - Filed Apr 16, 2004 - Microsoft Corporation

The database management system of claim 1, the reference **count** is performed ...
guide a **release** operation from each **child lock** to a respective parent **lock**. ...[Information control system for counting lock application against composite ...](#)

US Pat. 5063502 - Filed Dec 16, 1989 - AT&T Bell Laboratories

3, that an intermediate exclusive IE **lock** is required for each ancestor node
when a node exclusive NE **lock** is to be applied to a selected **child** 10 node. ...[Compact bar code scanner](#)

US Pat. 6311896 - Filed Dec 21, 1999 - Symbol Technologies, Inc.

Scanning of the provided for pressing of the other key to toggle the **lock** out
bar code of an item whose current **count** in memory is zero 45 function. ...[Lock-free wild card search data structure and method](#)

US Pat. 6862184 - Filed Sep 22, 2000 - International Business Machines Corporation

Lock ... ACTION) Decrement external node reference **count** (SAFE ACTION) Schedule
external node for read-copy destruction Stop **Release lock** 1120 •1100 FIG. ...[Methods for using a bar code reader for facilitating transactions and ...](#)

US Pat. 6308693 - Filed Oct 16, 2000 - Symbol Technologies, Inc.

The item **count** to zero) and provides the indicated user feedbacks. ... Repeated
use of this delete function may be used to **decrement** the quantity field 55 ...[System for maintaining precomputed views](#)

US Pat. 6374263 - Filed Jul 19, 1999 - International Business Machines Corp.

If **count(*)** value is the same in both, delete the row from MV, else **decrement**
the **count(*)** and **count** values in MV by those in A~G and subtract the sum value

...

[Retail sales customer auto-ID activation](#)

US Pat. 6572920 - Filed May 6, 2002 - Symbol Technologies, Inc.

Scanning of the bar code of an item whose current **count** in memory is zero while

... Host Communication Successful (Powerdown recv'd) Unsuccessful **Child Lock** ...

Retail sales customer marketing system with electronic coupon processing

US Pat. 6616049 - Filed Mar 29, 2002 - Symbol Technologies, Inc.

Repeated use of this delete function may be used to **decrement** the quantity field in ... As shown in Table I a **Lock** Toggle is provided in the code reader. ...

Sales transaction system with electronic coupon processing

US Pat. 6739514 - Filed Nov 9, 2001 - Symbol Technologies, Inc.

Repeated use of this delete function may be used to **decrement** the ... Host Communication Successful (Powerdown recv'd) Unsuccessful **Child Lock** Toggle (When ...
